WILLS'S CIGARETTES

Lifeboat.

In 1785 Lionel Lukin, a London coachbuilder, fitted up a Norway yawl with air-boxes at the stem and stern, and fixed a belt of solid cork along the outside of the gunwale, thus making the first insubmersible boat. In 1824 the Royal National Lifeboat Institution was founded, and its fleet now consists of over 280 boats, including 13 motor-lifeboats. Over 50,000 lives have been saved.
